The Producer authorizes the Service provider to assume administrative responsibility for its waste management obligations in accordance with articles L541-10 and R543-174 et seq. of the French Environment Code governing extended producer responsibility. The Producer authorizes the Service provider to conclude and manage a contract with the eco-organization of its choice and on behalf of its company. Consequently, the Service provider undertakes to receive all documents, acts or notifications sent by the eco-organization and to forward them to the Producer and, where appropriate, to transfer to the eco-organization all documents, acts or notifications sent by the Producer and intended for the eco-organization.

The Service provider must ensure the proper implementation of the Producer’s membership contract, in particular :

- ☐ Carry out the required registrations and/or listings of the Producer’s company on the digital platform used by the eco-organization,
- ☐ Submit declarations of marketing via the online portal and within the required deadlines, ensuring the veracity of the declared data,
- ☐ Submit missing marketing declarations under the retroactivity if it takes over the management of an already existing account previously attached to another Service provider,
- ☐ Ensure the proper follow-up of invoices issued by the eco-organization and their payment when due, by the Producer directly or by itself,
- ☐ Submit corrective declarations, represent the Producer and be present during inspections carried out by the eco-organization,
- ☐ Transmit to the Producer notifications corresponding to the modification of an existing contract (clauses, minimum annual invoicing, price lists, general conditions...) and ensure their acceptance by the Producer,
- ☐ Ensure the confidentiality of the Producer’s data during the term of the mandate and beyond,
- ☐ And more generally, do whatever is necessary for the purposes of executing and concluding the contract with the eco-organization.

This Power of Attorney does not bind the Service provider to the responsibility of the marketer regarding waste, and his obligations under Articles L541-10 and R543-174 et seq. of the French Environmental Code, for which the Producer remains solely responsible. This Power of Attorney is valid for an unlimited period from January 1st, 2025 and will terminate only if either party wishes to terminate it.
